B. ITU QUALIFICATION SYSTEM FOR COUNTRY QUOTA SPOTS

The quota spots qualified through the ITU Olympic Games Qualification System are for the country and NOT for specific athletes. In other words, an athlete who qualifies a quota spot for their country is not guaranteed to be selected to the Team – they must satisfy the selection criteria described in this Nomination Policy. If there is a discrepancy between the Qualification System and this document, the ITU Qualification System shall prevail. In the event of changes by ITU/COC/IOC to the selection and eligibility criteria, Triathlon Canada is bound by these changes and will inform its membership as soon as possible.

The ITU Olympic Games Qualification System indicates as follows:

- **There are 55 spots at the 2020 Olympic Games per gender**
- **Up to three (3) spots per gender per country depending on individual athlete ranking and mixed relay ranking**
- **Mixed relay qualification will provide two (2) quota spots per gender**
- **ITU Individual Olympic Ranking may provide quota spots up to the maximum (3) quota spots**
- **Mixed relay qualification will count toward a country's quota allocation**

***Note:** ITU Olympic qualification period started on May 11, 2018 and ends March 10, 2020. For the purpose of defining this period in this Nomination Policy, the Olympic qualification period shall commence as of the date of publication of the Nomination Policy. Due to the Tokyo 2020 Games being postponed till 2021, a new qualification period has not been confirmed from the ITU. Triathlon Canada will communicate the new qualification period immediately upon confirmation from the ITU and IOC.

***Note:** As of April 6, 2020 the Olympic qualification period has been suspended due to the coronavirus pandemic. There is no communication of amendments to the Olympic qualification period from the ITU or IOC. If and when such communication is received, Triathlon Canada will provide it to any impacted individuals.

D. DECISION MAKING AUTHORITY

- The High Performance Director is responsible for the implementation of this Nomination Policy. For the avoidance of doubt, the High Performance Director is responsible for all performance based decisions that must be made in the lead up to and during the 2020 Tokyo Olympic Games.
- The High Performance Director will review Team Member and Alternate nominations in consultation with the Triathlon Canada High Performance Selection Committee ("HPSC"), which consists of: the athlete representative, one or more Triathlon Canada High Performance staff members (excluding any and all coaches that directly coach any potential nominees) and the High Performance Director. FUNDING SUPPORT FOR 2020 TOKYO OLYMPIC GAMES SELECTED ATHLETES

Funding support for selected athletes will be in alignment with the COC Olympic Team Selection Policy and dependent on available Triathlon Canada resources.

L. CONDITIONS

Modification of Criteria

Triathlon Canada reserves the right to alter the list of designated Qualifying Events in Section E if changes to the ITU event schedule occur so that one of the Qualifying Events is no longer an appropriate selection event. A Qualifying Event may no longer be appropriate where its format changes, the date the event is to be held changes, the event loses its ITU status, or any other such changes occur.

Triathlon Canada will promptly post an announcement on its website if an alteration to list of designated Qualifying Events is necessary

In case of any discrepancies between the English and French versions of the Nomination Policy, the English version shall prevail.

Unforeseen Circumstances

In situations where unforeseen circumstances do not allow the Nomination Policy to be fairly and objectively applied, the Board of Directors reserves the right to determine an appropriate course of action.

In the event that the ITU/COC or International Olympic Committee's rules or policy changes in regard to nomination criteria or Team nomination decisions, Triathlon Canada's Board of Directors reserves the right to review and modify the Nomination Policy.

Any decisions made by the Triathlon Canada Board of Directors or any modifications made to the Nomination Policy shall be promptly communicated to the Canadian triathlon community.

Triathlon Canada Depth of Field and Quality of Field Evaluation Process

The purpose of this document is to outline the process that Triathlon Canada will use to determine the Depth of Field (DOF) and Quality of Field (QOF) of an event, as well as how they can be used to evaluate athlete performance. DOF will be used to evaluate an event as a whole, and an athlete's performance will be evaluated relative to the QOF.

Triathlon Canada is aware that events (especially at the Continental Cup and World Cup levels) vary greatly in terms of competitiveness. The objective of using DOF and QOF is to ensure that athletes, and their coaches, can objectively assess their performances and progression through Triathlon Canada's Podium Pathway. In doing so, they can make the appropriate shifts in their planning to maximize performance.

Additionally, utilizing DOF and QOF, Triathlon Canada can continue to ensure the top athletes are prioritized for selection/nomination through objective comparison of performances.

TRIATHLON CANADA'S AUTHORITY FOR DECISIONS

All matters relating to the selection of athletes for ITU competition are the sole authority of Triathlon Canada.

DEPTH OF FIELD

Depth of field is defined as the overall competitiveness of an event. Triathlon Canada will determine the DOF within the week prior to the event start date. The process is as follows.

- Average ITU World Ranking of the Top 8 Women and Top 10 men on the start list of the event

Note: The ITU World Ranking points range between women is significantly larger than men. Additionally, the total number of women in ITU races is smaller than men. Therefore, Top 10 will be used for men and Top 8 for women.

Example 1.

Event	Program	DOF (Rank AVG)	Points (AVG)	Rank (Count)	Rank (Range)	Top-3 (Rank Avg)
2019 Aj Bell World Triathlon Leeds	Elite Men	5.5	5171.026	10	9	2
2019 Aj Bell World Triathlon Leeds	Elite Women	5.875	4980.40125	8	11	2
2019 Huatulco ITU Triathlon World Cup	Elite Men	38.9	2344.74	10	42	20.3333333
2019 Huatulco ITU Triathlon World Cup	Elite Women	33	2755.4775	8	45	11.6666667

QUALITY OF FIELD

Quality of field is defined as the relative competitiveness of the participants in an event. Whereas DOF uses the absolute ITU World Ranking, QOF takes into consideration the actual ITU World Ranking Points and the difference between the absolute rankings.

TRI THLON CANADA

Example 2Event	Program	DOF (Rank AVG)	QOF (Points AVG)	Rank (Count)	Rank (Range)	Top-3 (Rank Avg)
2019 AJ Bell World Triathlon Leeds	Elite Men	5.5	5171.026	10	9	2
2019 AJ Bell World Triathlon Leeds	Elite Women	5.875	4980.40125	8	11	2
2019 Huatulco ITU Triathlon World Cup	Elite Men	38.9	2344.74	10	42	20.3333333
2019 Huatulco ITU Triathlon World Cup	Elite Women	33	2755.4775	8	45	11.6666667

For an event such as the Olympic Games or WTS Grand Final, the DOF and QOF are reflective of the most competitive event. This is due to the understanding that the Top 8/10 athletes will be in attendance. Finish position is at those events are an accurate representation of the highest level of competition. The competitiveness of an event becomes more complex for those that do not have the Top 8/10 athletes in attendance.

For example, two events can have the same DOF but not necessarily the same QOF. This is where QOF will be one tool to evaluate athlete performance relative to the athlete pool in the event.

EVALUATION OF ATHLETE PERFORMANCE

To further improve the accuracy of assessing athlete performance, DOF and QOF will be utilized in conjunction with Triathlon Canada's Gold Medal Profile and race analysis.

DOF will be used to determine the competitive level of an event and if an athlete achieving selection criteria meets the performance standards. It can also be used to compare two performances with the same result but in different events.

Example 3

4th at Huatulco WC vs 4th at Banyoles WC

Event	Program	DOF (Rank AVG)	QOF (Points AVG)	Rank (Count)	Rank (Range)	Top-3 (Rank Avg)
2019 Huatulco ITU Triathlon World Cup	Elite Men	38.9	2344.74	10	42	20.333333 3
2019 Banyoles ITU Triathlon World Cup	Elite Men	15.3	3917.7	10	28	3.333333

Banyoles WC would be considered the higher level event and thus the result in Banyoles is prioritized.

QOF will be used in comparing differing athlete results between two or more races.

Example 4

8th at Banyoles WC vs 6th at Huatulco WC

Event	Program	DOF (Rank AVG)	QOF (Points AVG)	Rank (Count)	Rank (Range)	Top-3 (Rank Avg)
2019 Huatulco ITU Triathlon World Cup	Elite Men	38.9	2344.74	10	42	20.333333 3
2019 Banyoles ITU Triathlon World Cup	Elite Men	15.3	3917.7	10	28	3.333333

QOF is the average of the Top 10 athletes starting in the event (the final results of the athlete is highlighted)

Rank	Banyoles Top 10 ITU World Ranking Points	Huatulco Top 10 ITU World Ranking Points
1	6333.16	3513.06
2	6231.99	2765.62
3	4584.55	2663.22
4	4134.84	2431.39
5	3790.55	2181.9
6	3099.76	2160.73
7	2878.81	2093.05
8	2886.09	1966.62
9	2557.97	1842.62
10	2494.64	1829.19

Though the athlete achieved a higher placing in Huatulco, using the ITU World Ranking points as an indicator of athlete performance level, an athlete achieving 8th in Banyoles is in fact performing at a higher level. Or one can say that the athlete achieved a performance level of 2886.09 points in

Banyoles and 2160.73 points in Huatulco. This evaluation can be done for any place as Triathlon Canada will have the full start list and rankings prior to the race.

Triathlon Canada's event selection policy outlines the priority criteria and achieving a higher priority criteria is still the primary measure of performance.

APPENDIX B

COMPETITION READINESS POLICY

INTRODUCTION

The purpose of this policy is to outline the eligibility procedures (the “competition readiness” determinant) that will be used by Triathlon Canada to select athletes who wish to be entered in any international competition.

The objective of the Triathlon Canada Competition Readiness Policy (“TCCRP”) is to identify and support Canadian athletes who have demonstrated the ability to consistently manage and monitor their health status, adopt a safe and effective training program, communicate their current health status to Triathlon Canada clearly and honestly, and target the appropriate levels of competition; all with the intent of continued progression towards achieving a podium result at the Olympic/Olympic Games and World Championships. Triathlon Canada will evaluate each athlete entry request on a case-by-case basis.

POLICY DETAILS

In accordance with International Triathlon Union (ITU) rules and regulations, Triathlon Canada is solely responsible for validating and submitting entry of Canadian athletes into international competition.

Demonstrated competition readiness is only one of many eligibility requirements outlined in Triathlon Canada’s individual event selection criteria documents. Valid and up to date athlete/coaching training logs, Triathlon Canada athlete monitoring programs, validated medical diagnosis/prognosis (through Triathlon Canada’s team physician), and athlete performance analysis will be used to evaluate and determine the competition readiness of an athlete. The Triathlon Canada High Performance Director will have sole discretion to allow or deny entry into an event based on competition readiness.

TRIATHLON CANADA’S AUTHORITY FOR DECISIONS

All matters relating to the nomination of athletes for international competition are the sole authority of Triathlon Canada. Competition readiness will be determined based on an athlete meeting all of the following criteria

Criteria 1: Current Athlete Health Status

To be considered competition ready by Triathlon Canada, an athlete must provide or demonstrate the following to Triathlon Canada:

- 1.1 A medical report clearing the athlete for competition from Triathlon Canada’s team physician or from a sport science and sport medicine (SSSM) practitioner as approved by Triathlon Canada’s team physician;
- 1.2 Access to or an up-to-date Triathlon Canada approved training/monitoring log; and
- 1.3 A signed and dated Athlete Injury Accountability Form.

Criteria 2: Athlete Monitoring and History

To be considered competition ready, an athlete must provide or demonstrate the following:

- 2.1 Consistent use of Triathlon Canada approved monitoring tools;
- 2.2 Full compliance with TCCRP in previous event entry requests;
- 2.3 Adoption and adjustment of training/competition principles in line with best practices for reducing injury as advised by the Triathlon Canada approved SSSM practitioners;
- 2.4 Adherence to return to play protocols during previous injuries as defined and outlined by Triathlon Canada approved SSSM practitioners and as directed by Team Canada's team physician; and
- 2.5 Consistent, clear, and timely communication of athlete training logs and health status as requested by Triathlon Canada.

Criteria 3: Competition Level

To be considered competition ready, an athlete must provide or demonstrate the following:

- 3.1. A commitment to compete at Triathlon Canada National Championships;
- 3.2. Progression of results at each successive level of competition as defined by Triathlon Canada's Podium Pathway;
- 3.3. A potential to achieve a Top 10 result in the requested event based on performance metrics (previous performances, GMP run and swim times, quality of field); and
- 3.4. A commitment to compete at events in which Triathlon Canada selected an athlete to compete.
