APPENDIX A COMPETITION READINESS POLICY

INTRODUCTION

The purpose of this document is to outline the eligibility procedures (the “competition readiness” determinant) that will be used by Triathlon Canada to select athletes who wish to be entered in any international competition.

The objective of the Triathlon Canada Competition Readiness Policy (TCCRP) is to identify and support Canadian athletes who have demonstrated the ability to consistently manage and monitor their health status, adopt a safe and effective training program, communicate clearly and honestly their current health status to Triathlon Canada, and target the appropriate levels of competition; all with the intent of continued progression towards achieving a podium result at the Olympic/Paralympic Games and World Championships. Triathlon Canada will evaluate each athlete entry request on a case by case basis.

POLICY DETAILS

As per International Triathlon Union (ITU) rules and regulations, Triathlon Canada is solely responsible for validating and submitting entry of Canadian athletes into international competition.

Demonstrated competition readiness is only one of many eligibility requirements outlined in Triathlon Canada’s individual event selection criteria documents. Valid and up to date athlete/coaching training logs, Triathlon Canada athlete monitoring programs, validated medical diagnosis/prognosis (through Triathlon Canada’s team physician), and athlete performance analysis will be used to evaluate and determine the competition readiness of an athlete. Triathlon Canada High Performance Director will have sole discretion to allow or deny entry into an event.
